PROJECTS

StockEasy React.js · Node.js · MySQL	• Full-stack inventory & stock management app with role-based access control and real-time dashboard updates. • Designed RESTful APIs for product tracking, supplier management, and sales analytics reports.
A.I.V.A Chatbot Python · LLM API · Django	• AI-powered conversational assistant with LLM API integration for dynamic, context-aware multi-turn responses. • Implemented session management, conversation history tracking, and a clean responsive chat interface.
Domain Management System Laravel · PHP · MySQL	• Web-based domain lifecycle management tool with registration, renewal tracking, and role-based admin controls. • Designed a normalized relational schema managing domain records, user accounts, and billing cycles.
Flipkart Clone React.js · Node.js	• Fully responsive e-commerce UI replicating Flipkart's product listing, cart, and checkout flows. • Applied component-driven architecture with clean state management for a maintainable codebase.
QR Code Generator Python · Streamlit	• Lightweight web app to generate and customize QR codes with instant preview and one-click download output.
Portfolio Websites HTML · CSS · JavaScript	• Designed and deployed multiple personal portfolio sites live at arham-portfolio-v2.netlify.app. • Implemented smooth animations, responsive layouts, and project showcase sections.

CURRENTLY LEARNING

 TypeScript · Next.js · Docker & Containerization · Cloud Deployment (AWS / Vercel) · Advanced System Design
